

STEAMWORKS_{LLC}

presents two important upcoming educational programs at

West Chester (Cincinnati), Ohio:

High Pressure Boiler Operator Licensing Program

12-Day Program: Oct. 7-11, Oct. 14-18, and Oct. 21-22, 2019

This **High Pressure Boiler Operator Licensing Program** is a State of Ohio-approved program to prepare your personnel to sit for the Ohio licensing exam. **This program allows the participant to reduce by one-half the required number of hours of practical experience needed to qualify to sit for the exam.** In addition, *STEAMWORKS* is committed to providing operator training that prepares your personnel for the real world – this comprehensive program starts them off right. Hands-on activities, exercises, demonstrations, field trips to operating steam plants, cutaway components, videos, and in-plant assignments are used extensively. This reinforces the material covered like no other program.

Stationary Steam Engineer Licensing Program

3-Day Program: October 23 - 25, 2019

(Prerequisite: High Pressure Boiler Operator Licensing Program above. Other combinations of practical experience and training may qualify; call us for details.)

The **Stationary Steam Engineer Licensing Program** is also a State-of-Ohio approved program. This program, along with the High Pressure Boiler Operator Licensing Program, prepares the participant to sit for the State of Ohio Third Class Stationary Steam Engineer licensing exam. Completion of the program allows the participant to reduce by one-half the required number of hours of practical experience needed to sit for the Ohio exam. It also functions as an excellent refresher for those installing new steam turbine equipment and auxiliary systems in existing plants. This program covers the operation and maintenance of steam turbines and auxiliary equipment, condensers, and more. Practice assignments and practice tests help prepare you for the State of Ohio exams.

We've enclosed literature and a registration form for these programs. These programs include all textbooks, class materials, field trips, and our guarantee of satisfaction. If you have specific questions regarding State of Ohio requirements or need more specific information about the program, please call Dean Wilson at *STEAMWORKS*, (614) 545-8517. We look forward to providing an outstanding steam system technical training program for you!

REGISTRATION FORM

Fill out and fax to STEAMWORKS at (614) 334-3222 or Call Us at (614) 545-8517

Name of Attendee(s): _____ Title & Email: _____

Register 3 people and receive a 10% discount!

Organization: _____
Mailing Address: _____
City: _____ State: _____ Zip Code: _____
Phone: (_____) _____ Fax: (_____) _____
